Subject: Fourth Quarter 2017 Monitoring Report
Underground Injection Control (UIC) Permit Number R9UIC-AZ3FY11-1

Dear Ms. Rumrill:

Florence Copper Inc. is regulated under UIC Permit No. R9UIC-AZ3FY11-1, issued December 20, 2016 for a pilot test facility. The facility received authorization to proceed with pre-operational activities on September 22, 2017.

We are currently completing installation of the pilot test wellfield in preparation for testing, and ambient-baseline monitoring of the new point-of-compliance (POC) wells. No operational activities have taken place which require reporting under Part II.G.2 of the UIC. No mechanical integrity testing or abandonments were performed during the quarter.

The facility is also regulated by UIC No. AZ396000001, dated May 1, 1997. We have submitted our standard quarterly monitoring report for this permit under a separate cover.

Please let us know if you require any further documentation. Please call me at (520) 374-3984 Ext. 3710 should you have any questions or concerns.

Sincerely,

Florence Copper Inc.
